| Taekni Empowering Performance | ENVIRONMENT POLICY | Doc No: TSB/IMS/M/A3<br>Revision: 00<br>Effective Date: 4th AUGUST 2025 |

**TAEKNI** strives to be a leader in environmental sustainability and believes that a successful future for our business and the customers we serve depends on the sustainability of the environment, communities and economies in which we operate.

As a responsible corporate citizen, we bear a responsibility to consider the impacts of our actions and how they affect the environment both directly in terms of our own operations, and indirectly through our purchasing decisions, the products and services we offer to our customers and the business opportunities we pursue.

We committed to minimising the impact of our operations on the environment, and to demonstrating leadership by integrating environmental considerations into all our business practices.

We want our products, services and production to be part of a sustainable society.

We are committed to:

- Protect the environment, including preventing pollution, through responsible management of our operations.
- Give appropriate weight to this environmental policy when making future planning and investment decisions.
- Reduce resource consumption, waste and pollution in our operations.
- Comply with, or exceed, our environmental obligations, including taking a proactive approach regarding environmental legislation that affects our business.
- Minimise the environmental impacts of our own operations through best practice management of our use of energy, transportation, material consumption, water use, waste and emissions.
- Will encourage suppliers, subcontractors, retailers and recyclers of our products to adopt the same environmental principles as EOTSB.
- Report transparently on our internal environmental performance through our company website.
